We are Women In Sports Law

WISLaw is an international, non-profit association, based in Lausanne, Switzerland, that unites women from 40 different countries who specialize in sports law. Our aim is to promote women in the sports law sector through regular educational programs and networking events. We also want to raise awareness of the participation of women in the sports law sector through the publication of annual reports.

We regularly hold small-scale meetings in different countries where we discuss sports-law specific topics in an informal setting (#Women Talk Football, #Women Talk Doping & #Women Talk Sports, depending on the topic). We also have purely networking events / gatherings of our members at major sports law conferences.
